

Want to attend MTF (Millsaps Training Facility) for a MX School? Is the cost of fuel keeping you from making the trip to GA?

Well we have the answer for you!

MTF (Millsaps Training Facility) will be offering a 3 day motocross camp July 9-11 at Midway MX in Kellogg, MN. This will be the first time MTF trainers have conducted their popular training camps away from Cairo, Georgia. If you have ever considered doing an MTF camp but couldn't get down there now is your opportunity to experience what others have called "the best training in MX".

The three day camp will include instruction in starts, braking, corners, jumps and whoops and will be conducted by MTF trainers, Bryan Johnson (AMA Pro Racer for Butler Brothers MX) and Charles Ellis. They are two of MTF's top trainers and both are current pro riders.

Myers Racing picked the July 9-11 date mainly for the local racers going to Loretta Lynn's. This date is 2 weeks prior to them leaving for the national and is a great opportunity for them to hone their skills prior to taking on the nations best riders!

The cost of the camp is \$975 and includes all on track instruction, food and a place to park at the track. We cannot offer refunds but we will credit you to another MTF camp if you are injured and unable to ride.

Please note only bikes 85cc and larger are eligible to participate in this camp.

Myers Racing Inc will be managing the school and processing the registration. There is a minimum of 20 riders to hold the event with maximum of 30. If the max of 30 riders is met, a third trainer from MTF will be present to maintain a 10:1 ratio.

For more information on this School event go to www.myersracinginc.com or contact Todd Myers at todd@myersracinginc.com
